Overview

Senior Mobile Developer specializing in Flutter, building high-quality Android and iOS applications. Skilled in Dart, REST API integration, Firebase, and delivering smooth, responsive user experiences.

Experience
---

uCertify Pvt. Ltd. (Product-Based EdTech Platform)   **Aug 2023 – Present**
Senior Flutter Developer   *Noida, UP*

- Leading development of scalable mobile apps for the uCertify EdTech platform using Flutter and Dart.
- Collaborating with product managers, designers, and backend engineers to deliver high-quality, user-centric learning experiences.
- Integrating REST APIs and Firebase for real-time data, analytics, and push notifications.
- Mentoring junior developers and implementing best practices for performance optimization and clean architecture.

W3villa Technologies Pvt. Ltd.   **July 2023 – July 2025**
Flutter Developer   *Noida, UP*

- Developed and maintained cross-platform mobile apps using Flutter for Android and iOS.
- Integrated REST APIs and Firebase for real-time features and smooth user experiences.
- Improved UI responsiveness and app performance using optimized state management and reusable components.

Projects
---

uCertify Learn Mobile App | *Flutter*   **uCertify**

- Contributing to the development of uCertify's EdTech mobile app with 15K+ users on Android using Flutter.
- Implementing interactive learning features, REST API integrations, and Firebase services for real-time updates.
- Ensuring responsive UI, smooth performance, and a user-friendly experience for learners.

Kivo.ai | *Flutter*   **W3villa Technologies**

- Developed and maintained Kivo.ai, a product-based HRMS app with 1K+ users for employee management, using Flutter.
- Integrated APIs for real-time data synchronization and smooth UX.
- Optimized app performance by 40% through efficient state management and reusable components.
- Collaborated with backend engineers and UI/UX designers to deliver a responsive, user-friendly experience.
- Implemented features such as attendance tracking, project management, and internal communication.

Fhunger | *Flutter*   **W3villa Technologies**

- Built the front-end of the Fhunger app, a food ordering platform, using Flutter.
- Integrated REST APIs for order management, payments, and authentication.
- Implemented real-time order tracking and push notifications with Firebase.

Plexeal | *Flutter, Node.js, Socket.io, Firebase*   **Independent Project**

- Designed and developed a food-focused social app using Flutter.
- Implemented real-time features, notifications, user feeds, and posts using Firebase.
- Developed backend using Node.js and Socket.io for real-time communication.
- Built features like recipe sharing, post creation, likes, comments, and user authentication.

Education

Rama University   **Aug. 2019 – July 2023**
Bachelor of Technology in Computer Science   *Kanpur, UP*

Skills

Mobile Development: Flutter, Dart, Android, iOS, Kotlin, Swift
State Management & Architecture: Provider, Getx, BLoC, MVVM, MVC, Clean Architecture
Backend & APIs: Firebase (Realtime DB, Firestore, Auth, Cloud Functions), REST APIs, Node.js, Socket.io
Databases: Firebase Realtime DB, Firestore, MySQL
Tools & CI/CD: Git, VS Code, Android Studio, Xcode, Postman, Fastlane, GitHub Actions
Other Skills: UI/UX Design, Performance Optimization, Real-time Applications, Push Notifications, App Deployment
